ASK SKUNK BEAR A QUESTION

FEBRUARY 24, 2014

TWO UT-ARLINGTON ENGINEERS HAVE INVENTED A TINY
Two UT Arlington(http://www.uta.edu/uta/) engineers have invented a tiny, working windmills(http://www.uta.edu/news/releases/2014/01/microwindmill-rao-chiao.php). They propose creating a field of these windmills on a cell phone sleeve, and using them to recharge cell phone batteries.

Don’t tell tiny Don Quixote.
