American Dream City: UTA Professors Help Put Arlington on the Map

UT Arlington, one of the fastest-growing colleges in the country, has been helping professors and students live the American Dream in Arlington for decades.

Jung-Chih Chiu, an electrical engineering professor, and Benita Hsu, a research associate, are perfect examples of people achieving their dreams right here in Arlington. The two professors joined forces to design a micro-windmill suitable for recharging cell phones and other devices. It's that type of innovation that is putting Arlington on the map.

Check out their American Dream story.
