

*Call for Papers*  
*Advances in Econometrics, Volume 36*  
*Essays in Honor of Aman Ullah*

It is the pleasure of the Senior Editorial Board of *Advances in Econometrics* (AIE) to announce a call for papers for Volume 36 of *Advances in Econometrics: Essays in Honor of Aman Ullah*, to recognize Aman's significant contributions in many areas of econometrics and to celebrate his long productive career.

The aim of this call for papers is to produce a research volume of original papers on the theory and practice of econometrics that is related to the work of Aman Ullah. Topics may include, but are not limited to:

- nonparametric/semiparametric econometrics
- finite sample econometrics
- shrinkage methods
- information/entropy econometrics
- model specification testing
- robust inference
- panel/spatial models

Selected papers will appear in *Advances in Econometrics: Essays in Honor of Aman Ullah* (Volume 36, 2016). The review process for the volume will be completed by November 2015 and the volume will appear in print by early 2016. The volume will be edited by Gloria Gonzalez-Rivera (UCR), R. Carter Hill (LSU), and Tae-Hwy Lee (UCR). Please e-mail complete papers no later than **December 31, 2014**, to the editors:

*Advances in Econometrics*, published by Emerald Group Publishing, Ltd., is a research annual whose editorial policy is to publish original research articles that contain enough details so that economists and econometricians who are not experts in the topics will find them accessible and useful in their research. To that end, authors should be able to provide, upon request, computer programs and data used in their articles. For more information on the *Advances in Econometrics* series and the titles and contents of previous volumes, see
