---

*Numeric responses use a scale 0-4 where 4 is the highest rating.*

IND RESP

1	Instructor's presentation of course material:	4
2	Instructor's ability to stimulate interest in the course:	4
3	Relevance of exams and assignments to course material:	4
4	Intellectual challenge of the course:	4
5	Overall evaluation of the instructor's performance:	4
6	Overall evaluation of the course:	4
7	How hard did you work:	4

8 *What impressed you most and/or least about this course?*

It was very difficult to keep up with and required vast amounts of time but it was well worth it and I learned a lot.

9 *What impressed you most and/or least about the instructor?*

Very organized and helpful to his students. Clearly was very busy but still made time for students questions.

10 *General comments*

## INTRO TO SCIENTIFIC COMPUTING

CSE3365-801C

1 Instructor's presentation of course material:	3
2 Instructor's ability to stimulate interest in the course:	3
3 Relevance of exams and assignments to course material:	4
4 Intellectual challenge of the course:	4
5 Overall evaluation of the instructor's performance:	3
6 Overall evaluation of the course:	3
7 How hard did you work:	2

8 *What impressed you most and/or least about this course?*

The projects were very well constructed.

9 *What impressed you most and/or least about the instructor?*

Very knowledgeable and approachable.

10 *General comments*

## INTRO TO SCIENTIFIC COMPUTING

CSE3365-801C

**Reynolds, Daniel R**

reynolds@smu.edu

*Numeric responses use a scale 0-4 where 4 is the highest rating.*

IND RESP

1	Instructor's presentation of course material:	4
2	Instructor's ability to stimulate interest in the course:	4
3	Relevance of exams and assignments to course material:	4
4	Intellectual challenge of the course:	3
5	Overall evaluation of the instructor's performance:	3
6	Overall evaluation of the course:	3
7	How hard did you work:	3

8 *What impressed you most and/or least about this course?*

Dr. Reynolds was very knowledgeable. His tests were very fair. I thought his grading of the projects was a little hard, but it only forced me to work even harder in the class (not a bad thing!).

9 *What impressed you most and/or least about the instructor?*

10 *General comments*

The only problem I had with this class was the homework. The collected homework was over sections that we had not yet covered, and therefore did not fully understand. This is fine, but the homework was graded on correctness. We were informed it was a completion grade. I assumed this meant if we did it, we received full credit. This was not the case. The homeworks were still graded for correctness, but the lowest grade we could receive was around a 75. As an A student, this is the reason I'm making an A- instead of an A in this class. This is frustrating. I do not mind doing homework. However, if homeworks are due before the material is covered they should be graded for true completion (100% if done, 0 if incomplete). Instead, misleading rhetoric was used to diffuse controversy.

## INTRO TO SCIENTIFIC COMPUTING

CSE3365-801C

**Reynolds, Daniel R***reynolds@smu.edu*

*Numeric responses use a scale 0-4 where 4 is the highest rating.*

4 Intellectual challenge of the course:	3
5 Overall evaluation of the instructor's performance:	3
6 Overall evaluation of the course:	3
7 How hard did you work:	3

8 *What impressed you most and/or least about this course?*

Least: the course did a poor job first introducing Matlab for the first lab. Most: the course was challenging but didn't feel overly difficult.

9 *What impressed you most and/or least about the instructor?*

Most: how he explained the relevance of each of the topics we learned.

10 *General comments*

## INTRO TO SCIENTIFIC COMPUTING

3	Relevance of exams and assignments to course material:	4
4	Intellectual challenge of the course:	4
5	Overall evaluation of the instructor's performance:	4
6	Overall evaluation of the course:	4
7	How hard did you work:	4

8 *What impressed you most and/or least about this course?*

Challenging and actually useful, open book tests so I could focus on actually understanding concepts instead of just memorizing for the test and then forgetting

9 *What impressed you most and/or least about the instructor?*

Awesome teacher. Reynolds is a really cool guy and an even better professor. Grades fairly, is really nice and helpful. I went to all the office hours available the day before each test and always had all my questions cleared up and did well on the tests with minimal studying (because he makes you understand the material, not because tests were easy). Overall one of my favorite teachers at smu so far, have recommended him to all my friends taking the class next semester.

10 *General comments*

Great teacher!

4	Intellectual challenge of the course:	3
5	Overall evaluation of the instructor's performance:	4
6	Overall evaluation of the course:	4
7	How hard did you work:	4

8 *What impressed you most and/or least about this course?*

I was very impressed by the fact that I did not want to take the class at all in the beginning of the class, and now I am very enthusiastic about the subject. It is definitely interesting for the student if he or she is willing to sit down and actually learn the material.

9 *What impressed you most and/or least about the instructor?*

I was really impressed by Professor Reynolds' ability to spark the students' interest in the course. Going into the class, I had no desire to take the course, and I was very intimidated by the information that was to be covered. Professor Reynolds explained the material so well, and he was extremely helpful in office hours. He always welcomed questions, and I rarely left class confused about the material. If I did, office hours cleared them up.

10 *General comments*

Despite having no desire to take Scientific Computing at the beginning of the semester, I am now super interested in the material, so I am looking forward to taking Numerical Analysis in the Fall!

8 *What impressed you most and/or least about this course?*

I was most impressed that after a year away from any type of computer science course, I was still able to program. I was also very impressed by the pretty much equal weighting on the programming aspects of the course and the mathematical derivations.

9 *What impressed you most and/or least about the instructor?*

I have taken a math class with Dr. Reynolds before, and I had forgotten what a fantastic lecturer he is. His notes in class are extremely helpful and provide plenty of example problems. He kept me very engaged in class because he always prompted the class as he was working through problems for our thoughts on how to solve the problem. He was also very available for office hours, and I wish I had taken advantage of that as much as I did the last time I was in his class. I would definitely take another class with him.

10 *General comments*
